

Greyhound

Group:	Group 4 (Hounds)
History:	
General Appearance:	Strongly built, upstanding, of generous proportions, muscular power and symmetrical formation, with long head and neck, clean well laid shoulders, deep chest, capacious body, slightly arched loin, powerful quarters, sound legs and feet, and a suppleness of limb, which emphasise in a marked degree its distinctive type and quality.
Characteristics:	Possessing remarkable stamina and endurance.
Temperament:	Intelligent, gentle, affectionate and even tempered.
Head And Skull:	Long, moderate width, flat skull, slight stop. Jaws powerful and well chiselled.
Eyes:	Bright, intelligent, oval and obliquely set. Preferably dark.
Ears:	Small, rose-shaped of fine texture.
Mouth:	Jaws strong with a perfect, regular and complete scissor bite, i.e. the upper teeth closely overlapping the lower teeth and set square to the jaws.
Neck:	Long and muscular, elegantly arched, well let into shoulders.
Forequarters:	Shoulders oblique, well set back, muscular without being loaded, narrow and cleanly defined at top. Forelegs, long and straight, bone of good substance and quality. Elbows free and well set under shoulders. Pasterns moderate length, slightly sprung. Elbows, pasterns and toes inclining neither in nor out.
Body:	Chest deep and capacious, providing adequate heart room. Ribs deep, well sprung and carried well back. Flanks well cut up. Back rather long, broad and square. Loin powerful, slightly arched.
Hindquarters:	Thighs and second thighs, wide and muscular, showing great propelling power. Stifles well bent. Hocks well let down, inclining neither in nor out. Body and hindquarters, features of ample proportions and well coupled, enabling adequate ground to be covered when standing.
Feet:	Moderate length, with compact, well-knuckled toes and strong pads.
Tail:	Long, set on rather low, strong at root, tapering to point, carried low, slightly curved.
Gait/Movement:	Straight, low reaching, free stride enabling the ground to be covered at great speed. Hind legs coming well under body giving great propulsion.
Coat:	Fine and close.
Colour:	Black, white, red, blue, fawn, fallow, brindle or any of these colours broken with white.
Sizes:	Ideal Height:

Dogs 71-76 cms (28-30 ins)

Bitches 69-71 cms (27-28 ins)

Faults:

Any departure from the foregoing points should be considered a fault and the seriousness with which the fault should be regarded should be in exact proportion to its degree and its effect upon the health and welfare of the dog.

Notes:

Male animals should have two apparently normal testicles fully descended into the scrotum.
